WHAT IS THIS PRODUCT?

Type

The Shares are a class of shares in CaixaBank Wealth Idalia Fund, a sub-fund of CaixaBank Wealth SICAV. The Fund is organised as a public limited company (*société anonyme*) governed by the Luxembourg law of 10 August 1915 concerning commercial companies, as amended (the "**1915 Law**") and is an investment company with variable capital (*société d'investissement à capital variable*). The Fund qualifies as an undertaking for collective investment in transferable securities (UCITS) within the meaning of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment (the "**2010 Law**"). The Fund has appointed CaixaBank Asset Management Luxembourg S.A. as its management company (the "**Management Company**"). The Sub-Fund is a sub-fund of an investment fund, whose performance will depend on the performance of its portfolio as further described in the section "Objectives" of this Key Information Document ("**KID**").

Term

The Fund, the Sub-Fund and the Shares were created for an unlimited duration. The Fund can be dissolved by a resolution of the general meeting of shareholders as further outlined in the articles of incorporation of the Fund (the "**Articles**"). The PRIIP Manufacturer cannot terminate the Fund, Sub-Fund or the Shares unilaterally.

Objectives

The investment objective of the Sub-Fund is to provide its shareholders with medium to long-term capital appreciation by investing in a dynamic and diversified portfolio of assets. The investment objective of the Sub-Fund is to provide shareholders with capital growth, by investing, directly or indirectly through UCITS (including eligible Exchange-Traded Funds ("**ETFs**")), most of its assets in eligible fixed income and equity securities. The Sub-Fund may be exposed to equities markets worldwide. The minimum equity exposure will be 20% of the Sub-Fund's net assets and may reach up to 90% of the Sub-Fund's net assets in aggregate. The Sub-Fund may also be exposed to fixed incomes securities up to 80% of its net assets. The Sub-Fund may invest in perpetual bonds, green bonds, credit bonds, convertible bonds (including contingent convertible bonds), and covered bonds. The Sub-Fund may invest up to 20% of its net assets in perpetual bonds and green bonds, respectively, and up to 5% of its net assets in contingent convertible bonds. The Sub-Fund may also invest in sub-investment grade fixed income securities (with a rating below BBB- (i.e.: high yield bonds) or equivalent by any major rating agency or deemed by the Investment Manager to be of equal quality). Investments in these securities will not exceed 20% of the Sub-Fund's net assets. In the context of a rating downgrade, a corporate action or other conversions (including corporate restructuring events), this limit may be exceeded on a temporary basis. In this case, the Investment Manager will seek to reduce its exposure to those instruments as soon as practicable whilst having regard to the best interest of the investor. The Sub-Fund may be exposed up to 20% of its net assets to emerging market bonds and equities. The Sub-Fund will not invest directly in Mainland China. The Sub-Fund may be exposed up to 60% of its net assets to assets denominated in a currency other than the

Euro. The Sub-Fund may, to a marginal extent and in no case exceeding 30% of its net assets, gain exposure to alternative asset classes, such as commodities and real estate respectively. Such exposure may only be gained through investments in UCITS, including eligible ETFs. The Sub-Fund, to achieve its investment goals for treasury purposes and/or in case of unfavorable market conditions, may also invest on an ancillary basis in transferable securities and Money Market Instruments other than those referred in the prospectus. The Sub-Fund will not enter into Securities Financing Transactions ("**SFTs**") nor Total Return Swaps ("**TRS**"). The Sub-Fund may also hold ancillary liquid assets, such as cash in bank deposits at sight held in current accounts with a bank accessible at any time, for up to 20% of its net assets which may only go beyond the 20% limit in case of exceptionally unfavorable market conditions as further described in the prospectus. The Sub-Fund may use derivatives for the purpose of efficient portfolio management, hedging and to implement investment strategies which aim to achieve the Sub-Fund's investment objective. The Sub-Fund will in principle not make an extensive use of derivatives. The Sub-Fund may invest in derivatives in the form of futures and options traded in official markets including, but not limited to, EUREX, CMT, CBOT and MEFF. The Sub-Fund will not use derivatives dealt in over-the counter ("**OTC derivatives**"). The Shares are non-distributing: any income generated by the Sub-Fund is reinvested to grow the value of the Shares. Investors may redeem their Shares in the Sub-Fund on each business day in Luxembourg. The Sub-Fund pursues an actively-managed investment strategy. The Sub-Fund refers to the following benchmarks: MSCI Europe TR Net (20,90%) - MSCI USA TR Net (USD) (22%) - MSCI Japan TR Net (JPY) (3,30%) - MSCI Emerging Markets TR Net (USD) (8,80%) - ICE BofA 1-3Y All Euro

Government (9,90%) - ICE BofA 3-5Y All Euro Government (25,20%) - ICE BofA 3-5Y Euro Corporate (9,90%) (the “Benchmark”). The investments underlying the Sub-Fund do not take into account the European Union (“EU”) criteria for environmentally sustainable economic activities¹. The depositary of the Fund is BNP Paribas, Luxembourg Branch. This KID is available in English and Spanish. The latest price for the Shares is available at the registered office of the Fund, 46b, avenue J.F. Kennedy L-1855 Luxembourg, Luxembourg. The Fund is an umbrella fund offering several sub-funds whose assets and liabilities are legally segregated between each other. Such document only describes the E of the CaixaBank Wealth Idalia Fund. Other classes are also available within this Sub-Fund. Further

information on such classes is available in the prospectus of CaixaBank Wealth SICAV. Conversion in and out between sub-funds/classes of shares within CaixaBank Wealth SICAV is allowed. Periodic reports and the prospectus, as further outlined in the section “Other relevant information” below, are prepared for the Fund as a whole. For further information, you may refer to copies of the prospectus and of the last annual and semi-annual reports of the entire Fund as well as other practical information which are available in English at the registered office of the Fund, 46b, avenue J.F. Kennedy L-1855 Luxembourg, Luxembourg and on the following website <https://www.caixabankamlux.com/>.

Intended retail investor

The Shares are intended for retail investors who (i) have sufficient past experience and theoretical knowledge of this kind of investment allowing them to assess the risk of investing in this kind of product, (ii) have a medium/long-term investment horizon of 5 years and (iii) have sufficient resources to be able to bear the loss of their entire capital when investing in the Shares. The need of the retail investor to be able to bear the loss of their entire investment is due to several risks including market and credit risk, which can significantly impact your return on investment. These risks are further described in the section “What are the risks and what could I get in return?” below. Investors should be willing to assume a risk of 3 out of 7, which is a medium-low risk.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

← Lower Risk

Higher Risk →

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are very unlikely to impact our capacity

to pay you. Further information is disclosed in the sections “Risks Considerations” and “Conflict of Interest” of the Fund’s prospectus. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of a suitable benchmark over the last 10 years. Markets could develop very differently in the future. The scenarios shown are illustrations based on the results from the past and on certain assumptions.

Recommended holding period: 5 years
Example Investment: € 10,000
Scenarios

| | | If you exit after 1 year | If you exit after 5 years |
|--------------|---|--------------------------|---------------------------|
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | € 6,960 | € 6,870 |
| | Average return each year | -30.38% | -7.23% |

| Favourable | What you might get back after costs | € 11,800 | € 12,750 |
| | Average return each year | 17.96% | 4.98% |

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment in a suitable benchmark between March 2015 and March 2020. Moderate: This type of scenario occurred for an investment in a suitable benchmark between January 2019 and January 2024. Favourable: This type of scenario occurred for an investment in a suitable benchmark between February 2020 and February 2025.

WHAT HAPPENS IF CAIXABANK ASSET MANAGEMENT LUXEMBOURG S.A. IS UNABLE TO PAY OUT?

The investor may not face a financial loss due to the default of the PRIIP Manufacturer. The assets of the Fund are held in safekeeping by its depositary, BNP Paribas, Luxembourg Branch (the “Depositary”). In the event of the insolvency of the PRIIP Manufacturer, the Fund’s assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary’s insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations as set out in the agreement with the Depositary). Losses are not covered by an investor’s compensation or guarantee scheme.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- € 10,000 is invested.

| | If you exit after 1 year | If you exit after 5 years |
|-------------------------------|--------------------------|---------------------------|
| Total costs | € 135 | € 714 |
| Annual cost impact (*) | 1.4% | 1.3% each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.4% before costs and 3.1% after costs.

Composition of Costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|--|---|--------------------------|
| Entry costs | We do not charge an entry fee. | € 0 |
| Exit costs | We do not charge an exit fee for this product. | € 0 |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 1.22% of the value of your investment per year. This is an estimate based on actual costs over the last year. | € 122 |
| Transaction costs | 0.13% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | € 13 |
| Incidental costs taken under specific conditions | | |
| Performance fees | There is no performance fee for this product. | € 0 |

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 5 years

The Sub-Fund is aimed at investors with a high risk tolerance who assume a perspective of capital appreciation in the medium/long term and, as such, are willing to tie up their savings for a recommended holding period of 5 years.

You can redeem your investment at any time during this period, or hold the investment longer. Investors may redeem their shares of the Sub-Fund on any business day in Luxembourg. Cashing in before the recommended holding period may increase the risk of lower investment returns.

HOW CAN I COMPLAIN?
