Directors' Report

Dear Investors,

We are pleased to present the Annual Report, including Audited Financial Statements of BPI Global Investment Fund FCP (the "FCP") as at December 31, 2022. It includes the Investment Management Report produced on behalf of the Board of Directors of the Management Company.

The FCP is registered in the Grand Duchy of Luxembourg as a *Fonds Commun de Placement* pursuant to Part I of the Law of December 17, 2010 (the "Law") related to Undertakings for Collective Investment on Transferable Securities, as amended.

CaixaBank Asset Management Luxembourg S.A. is the Management Company of the FCP. CaixaBank Asset Management Luxembourg S.A. is a Luxembourg management company licensed by the *Commission de Surveillance du Secteur Financier* to manage Undertaking for Collective Investments in Transferable Securities as per Chapter 15 of the amended Law of December 17, 2010.

Role and Responsibility of the Board of Directors of the Management Company (the "Board")

The responsibility of the Board is governed by Luxembourg Law. With respect to the Annual Report, including Audited Financial Statements of the FCP, the duties of the Board are governed by the Law of December 10, 2010 on, inter alia, the accounting and annual accounts of Undertakings for Collective Investment and by the amended December 17, 2010 Law.

Board Composition

The Board of the Management Company includes independent directors and as a whole has a breadth of investment knowledge, financial skills, as well as legal and other experience relevant to the FCP's business. Directors are elected on a multi-annual basis by shareholders of the Management Company at the Annual General Meeting.

Board Meetings and Corporate governance

In 2022, the Board has formally met each quarter in line with its objectives to meet at least quarterly, with additional meetings being convened as required from time to time by the business of the FCP.

Prior to each Board meeting the Directors received detailed and timely information allowing them to be prepared for the items under discussion during the meeting. For each quarterly meeting the Board receives reports consolidated by the Management Company team on the basis of information received from the Investment Manager, the Distributor, the Depositary Bank, the Administrator, the Transfer Agent, and the Auditor. Senior representatives of the Management Company attend Board meetings to enable the Directors to question the reports presented to them.

Once a year, in a dedicated Board meeting, the agenda includes, amongst other matters, the approval of the Annual Report, including Audited Financial Statements.

The Board is responsible for ensuring that a high level of corporate governance is met and considers that the governance of the FCP by the Management Company has complied with the best practices in the Luxembourg funds industry.

In particular, the Board of the Management Company has adopted and is committed to follow the ALFI Code of Conduct which sets out principles of good governance. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

Investment Management Report

We closed a very complicated year 2022 in terms of asset management and where the changes produced at an economic, geopolitical or expectations level have marked the passage of troubled financial markets. The behavior of some asset classes has been aimed at breaking the most important historical records. This is the case, for example, of the evolution of fixed income and interest rates, the appreciation of the dollar or even the volatility of some raw materials such as natural gas. But if there are two words that have defined the year, those are war and inflation.

The year started reasonably with healthy growth expectations after the end of the pandemic. The central banks continued with the idea that the inflationary spike was temporary, and that monetary policy would continue in an accommodative manner.

Two aspects underlay the central scenario and that nobody considered in those early stages: the excess liquidity injected in the form of checks to American families in the pandemic and the magnitude of the interruptions in the supply chains. These two milestones were quietly putting pressure on inflation and their normalization was not entirely clear at the time. But what added fuel to the fire was the start of the Ukrainian war on February 24th. This event has just destabilized the financial markets in two ways: the exorbitant increase in the prices of raw materials, especially natural gas and oil, but also the uncertainty generated in the euro area due to the potential impact that the war could have about economic growth, inflation, and expectations in Europe.

The geopolitical impact was not limited to the Ukrainian war either, but also in this second half of the year we have attended the congress of the Chinese communist party that has strengthened the power of Xi-Jinping, the political and economic turmoil in the United Kingdom or the elections mid-term elections in the US among other events with less impact such as the elections in Italy.

As we have said, a large part of these events has had a significant impact on a variable that had not been a source of concern for years, such as inflation. The inflationary uptick that began as such in its general measurement and then little by little has permeated its Core measurement (without the price of energy and food) has been of a magnitude that has not been seen since the 1970s after the crisis of the oil. This has caused central banks to change pace dramatically as there was a real risk that they would start to get behind the curve.

Directors' Report (continued)

Investment Management Report (continued)

And the first monetary authority to act energetically was the Federal Reserve (Fed), which has raised rates in the US by 450 basis points from the 0%-0.25% band to the 4.25%-4.5% band, being the biggest rise in interest rates in America for 4 decades. In the Eurozone, after a timid approach to controlling inflation, the European Central Bank (ECB) closed the year as the central bank with a more hawkish message, considering that the origin of inflation in the Eurozone is totally different from its origin in the US. Thus, in America, the escalation of prices is purely due to demand and bottlenecks, while in Europe it is due to an energy shock and a supply crisis where the capacity of monetary policy is more limited. The ECB has raised rates in Europe by 250 basis points throughout 2022.

On the economic side, both the energy shock and inflation and the actions of central banks have taken their toll in the form of an economic slowdown. Even so, the much-vaunted recession has not finished taking place and it seems that it will be delayed until 2023. Although in an environment with full employment, healthy business and family balance sheets and expectations that, although they have moderated a lot, do not seem to be enough in the future for not entering a mild recession.

Regarding other geographical areas, China may have been the source of the greatest volatility and uncertainty because it has been the global economy with the greatest slowdown exacerbated by the zero COVID-19 policy applied throughout the year 2022. Its potential reopening during the second semester has sown some hope in the markets, although with the reservations that come from the little information that is available from that country regarding the evolution of cases and variants of the virus.

The markets have had a year of generalized corrections in all asset classes, but in some of them the movement has been dramatic, such as fixed income. Investors in general have not seen a correction in bond prices and a rise in rates of this magnitude even in the most recent history dating back to 1994. You must go back to the 1970s to find a similar environment with the large rate hike carried out by Fed's chairman Volcker in the US.

The falls in the stock markets have been minimized compared, even though, for example, the SP500 has corrected -19.44% in 2022.

In currencies, the winner has been the dollar as a refuge asset. Its appreciation has been 5.85% against the euro and 13.94% against the yen.

* Launched on November 8, 2022.

BPI Global Investment Fund - BPI Opportunities:

BPI Global Investment Fund - BPI Opportunities (the "Sub-Fund") was launched in August 2005. The Sub-Fund invests globally, focused on large capitalization companies, characterized by high and consistent return on capital and low leverage, seeking to provide Unitholders with long-term capital appreciation, based on risk spreading and future potential growth.

In 2022, the stock market was impacted by an adverse macroeconomic context. The growing inflationary pressures, exacerbated by geopolitical instability and war environment, together with global macroeconomic conditions that remained robust, resulted in less accommodative policies from central banks and to an unprecedented rise in interest rates. After an initial recovery from equity markets in the third quarter, a less than expected decrease in US inflation and Eurozone inflation reaching double-digit (10%) for the first time in history prompted central banks to reiterate its aggressive stance to fight inflation and eliminated hopes of a pause in interest rate hikes, which lead to significant market losses in the second half of the quarter. The last quarter of the year was marked by a more positive sentiment in financial markets, but whose recovery failed to prevent 2022 from registering a significantly negative performance. The better than feared earnings season in Europe and the US, the greater slowdown in inflation at the end of the quarter in several regions, particularly the US, and the signs of a possible slowdown in the pace of rate hikes by the Fed, supported investor sentiment in the last three months and helped boost the performance in the equity markets. In terms of economic activity, despite strong interest rate hikes by the major central banks, activity still remains resilient although in slightly contracting territory.

In this risk off environment, companies from more defensive sectors such as consumer staples and healthcare were among the best performers in the portfolio.

Directors' Report (continued)

BPI Global Investment Fund - BPI Opportunities (continued):

The American pharmaceutical Eli Lilly and Danish pharmaceutical Novo Nordisk were among the best performing stocks in the portfolio, recording 34.2% and 29.6% return, respectively. Other defensive names such as Philip Morris, Pepsico and Johnson & Johnson also delivered positive returns in 2022.

On the other hand, consumer discretionary and IT companies were significantly penalized. Big tech names like Meta, Paypal, Amazon, Adobe and Alphabet were on the bottom 10 of the portfolio in terms of performance, recording returns between -39% and -64%.

Finally, a note to the appreciation of the dollar against the euro, which has benefited assets in dollars.

The Sub-Fund returned -18.17% (Class I) in 2022.

BPI Global Investment Fund - BPI High Income Bond Fund:

BPI Global Investment Fund - BPI High Income Bond Fund (the "Sub-Fund") was launched in August 2005. The Sub-Fund invests primarily in high income paying debt assets or/and similar securities of lower rating issued by companies in Europe, seeking to provide income through investments in high yield corporate bonds, which allow an extra premium due to the higher inherent risk.

BPI Global Investment Fund - BPI High Income Bond Fund (Class I) delivered a negative return of 12.02% in 2022.

The Fixed income classes have delivered very negative returns during 2022, with government yields rising aggressively and with the widening of credit spreads in both Investment grade and high yield classes. The Investment grade classes underperformed the lower credit and riskier segments, with the interest rate movement being the main driver of performance.

BPI Global Investment Fund - BPI High Income Bond Fund delivered a negative return similar to its benchmark. The overweight in the financial sector, particularly the exposure to subordinated debt was the main negative contributor both in relative and absolute terms, offset by the good selection in sectors like Consumer Discretionary, Utilities, and Energy, where the underweight to longer duration bonds and Ukraine-Russian conflict exposed issuers was determinant.

BPI Global Investment Fund - BPI Iberia:

BPI Global Investment Fund - BPI Iberia (the "Sub-Fund") was launched in April 2007. The Sub-Fund invests in listed Spanish and Portuguese equities or equity related assets which offer upside potential, with the aim to provide Unitholders with long-term capital appreciation, based on risk spreading and future potential growth.

The year 2022 was mixed for Iberian markets as IBEX35 Total Return went down by -2.03% but PSI20 Total Return went up 7.3%, which meant that our benchmark went down by 16bps. The Sub-Fund's active management approach allowed Unitholders to gain +353bps on top of the benchmark return.

The main contributor of the year was the financial sector with +100bps over the benchmark mainly due to our overweight position in Sabadell vs underweight in BCP and overweight in BBVA vs underweight in Santander.

Sabadell has presented excellent results throughout the year and brought forward to 2022, one year in advance, the guidance of reaching >6% RoTE. Later they revised this guidance to >7% RoTE already in 2022. In the case of BCP results have also been decent but its capital ratio caused some concerns which ultimately translated in expensive debt issuance.

Within Globals, throughout the year, BBVA's results outpaced Santander's earnings mostly due to the relative outperformance of Mexico vs Brazil.

The main detractor was the Retail sector with -49bps vs the benchmark as our overweights in Sonae and Inditex underperformed our underweight in Jerónimo. Inditex was penalized at the beginning of the year with its exposure to Russia and Ukraine and after that with concerns around the potential slowdown in discretionary spending to the upcoming recession in 2023. Sonae was also impact by some exposure to consumer discretionary and also with increase in sovereign yields. In the case of Jerónimo, its operational performance has been quite strong due to inflation tailwinds in Poland.

The Sub-Fund returned 3.37% (Class I) in 2022.

BPI Global Investment Fund - BPI Africa:

BPI Global Investment Fund - BPI Africa (the "Sub-Fund") was launched in December 2008. The Sub-Fund mainly invests in instruments issued by African companies (companies having their head office in Africa or listed in Stock Markets in African countries) and/or companies that have significant operations in Africa seeking to provide Unitholders with long-term capital appreciation.

In a negative year for global equity markets BPI Global Investment Fund - BPI Africa (class M) lost 11.4%. South African and Nigerian equities ended the year with positive performances of 4.0% and 6.0%, respectively, while the Kenyan market was down 20.6%, Morocco lost 22.0%, and Egypt was down 17.9%.

In fact, the main index in South Africa went up by 24% while the Egyptian equities market climbed by 10.2%. The Sub-Fund's sector allocation benefited mostly from Consumer Staples and Materials, while Communication Services and Financials lagged. Naspers and Prosus were among the top contributors to performance this year. The two companies believe they have reached the peak of e-commerce losses and target to achieve EBIT breakeven in the consolidated e-commerce portfolio by the first half of 2025. Management expects trading profits to improve across all segments in the second half of 2023. Prosus stated that it is considering selling Meituan, which would provide additional balance sheet solidity.

Directors' Report (continued)

BPI Global Investment Fund - BPI Africa (continued):

Buybacks to unlock value will continue, as long as the discount to NAV is elevated. M&A and investment will be disciplined, and cost cutting will continue to be a focus.

The relative outperformance of BPI Global Investment Fund - BPI Africa shows the continued benefits of having exposure to a diversified portfolio of African equities, focusing on stock selection and capturing sustainability opportunities such as Growth and Prosperity and Financial Inclusion.

BPI Global Investment Fund - BPI Technology Revolution:

BPI Global Investment Fund - BPI Technology Revolution (the "Sub-Fund") has, since its change in investment policy on October 2020, been seeking to provide Unitholders with long-term capital appreciation through the investment in a diversified portfolio of equity securities and other types of transferable securities issued by companies across the globe, who are pioneering the various themes present in the technology revolution such as but not limited to robotics, artificial intelligence, big data analytics, machine learning, Internet of Things (IoT), Fintech, Cloud Computing, 3D printing.

While technology stocks outperformed the market during the COVID-19 pandemic, they have lagged behind in 2022 given the more adverse macroeconomic context. In addition to a normalization of consumption habits, the need to control high and persistent inflation in the main economies led central banks to embark on an unprecedented rapid and aggressive rise in interest rates. This context led to significant losses in global equity markets, with the technology sector underperforming the market over the last year. Taking into account that many of the companies in this sector are classified as growth companies, that is, with a high potential for generating future cash flows, an increase in interest rates ends up having a greater impact on discounting these cash flows for the present and, consequently, in the estimated fair value of the company. Furthermore, the sector's excellent performance between 2016 and 2021 led to high valuations that, in many cases, could not be sustained in an environment of higher interest rates. Earnings estimates also began to be revised downwards, taking into account a macro outlook of slowing economic growth, stock management, uneven demand and gradual improvement of supply chains. With consumers and businesses increasingly concerned about the rising risk of a recession, some have cut back on technology spending. In this context, many companies in the sector sought to become more cost efficient, with several announcing redundancies and payroll savings. In addition, large US-based multinational technology companies suffered from currency volatility, specifically the strong dollar, which disproportionately hurt the sector's growth. In addition to these factors, the zero-COVID policy in China also contributed to the poor performance of the sector in global terms and to Chinese technology companies in particular.

In this very challenging context, the Sub-Fund finished the year with a negative performance. However, the quarterly portfolio rebalances contributed positively to the Sub-Fund's performance, resulting in a lower exposure to mega capitalization stocks which were more penalized in relative terms.

The Sub-Fund returned -42.77% (Class M) in 2022.

BPI Global Investment Fund - BPI Alternative Fund: Iberian Equities Long/Short Fund:

BPI Global Investment Fund - BPI Alternative Fund: Iberian Equities Long/Short Fund (the "Sub-Fund") was launched in February 2013. The Sub-Fund's main strategy consists of offering to its Unitholders access to a portfolio composed of Iberian shares whose performance is related with the relative performance of these shares and not with the absolute performance of the markets in which they are inserted. To achieve this effect, this strategy consists of the elaboration of a Long Portfolio (made up of long positions in shares and shares/indices derivatives) and a Short Portfolio (made up of short positions obtained through recourse to derivatives). In this way, the directional risk of the strategy is decreased substantially. This will be a strategy that has a "market neutral" bias.

2022 was a difficult year for the different asset classes but BPI Global Investment Fund - BPI Alternative Fund: Iberian Equities Long/Short Fund delivered again a positive performance. Throughout the year, the Sub-Fund averaged a gross exposure of 83.40% and a net exposure of 4.43%.

The main performance contributor of the Sub-Fund was the Financial sector with +71 basis points (bps) mainly due to our pair trades long Sabadell vs short BCP and Unicaja and long BBVA vs short in Santander.

Sabadell has presented excellent results throughout the year and brought forward to 2022, one year in advance, the guidance of reaching >6% return on tangible equity (RoTE). Later they revised this guidance to >7% RoTE already in 2022. In the case of BCP results have also been decent but its capital ratio caused some concerns which ultimately translated in expensive debt issuance. Unicaja's results were worse than peers mainly at the revenues side with slower NII improvement.

Within Globals, throughout the year, BBVA's results outpaced Santander's earnings mostly due to the relative outperformance of Mexico vs Brazil.

The main detraction came from stocks exposed to Growth factor with -99bps. Among the main detractors, we highlight our long in Grifols vs short in Almirall and our long in Inditex vs short in Jerónimo Martins. Grifols underperformance has been mostly due to the company's very high leverage position. In the case of Inditex and Jerónimo, Inditex was penalized at the beginning of the year with its exposure to Russia and Ukraine and after that, with concerns around the potential slowdown in discretionary spending due to the upcoming recession in 2023. In the case of Jerónimo, its operational performance has been quite strong due to inflation tailwinds in Poland.

The Sub-Fund returned 1.62% (Class I) in 2022.

Directors' Report (continued)

BPI Global Investment Fund - Maverick Global Fund:

BPI Global Investment Fund - Maverick Global Fund (the "Sub-Fund") was launched on June 18, 2018. The Sub-Fund invests in a diversified portfolio consisting primarily of equity securities, including common stocks, preferred stocks, warrants, securities convertible into common stocks or other equity-indexed securities of companies that the Sub-Fund Manager believes have growth potential and carry an appropriate level of risk.

With respect to the equity markets, investments may be made worldwide and are not limited by region, sector, style or market capitalization. High exposure to small-cap companies may be maintained in certain management periods, up to 80% of the Sub-Fund.

In addition, investments may be made in public and private debt securities, short-term securities (such as certificates of deposit, deposits, interbank applications, commercial paper or treasury bills) and up to 10% in other UCITS. They will have an average rating of investment grade (equivalent to AAA and BBB- by Standard & Poor's).

In equities, a priority was given to geographic areas where profit growth is substantial and valuations are attractive. These investments were made through direct shareholdings in companies, ETFs and options, in order to take a directional position. During the year we have decreased the levels of exposure, ending the period with a weight in equities of 81.87%. Geographically, the overweight in US and Europe stands out. By sector, we have a preference for Financials, Industrials, Healthcare and Technology.

In fixed income, the main objective was preservation of capital. A portion of the portfolio consists of direct short term government bonds.

The biggest currency exposure of the Sub-Fund is in US Dollar.

The Sub-Fund returned -12.50% (Class E) in 2022. The main negative return driver was exposure to equities. Exposure to foreign currency markets was positive.

Volatility was 16.71% during the year.

BPI Global Investment Fund - BPI European Financial Equities Long/Short Fund:

BPI Global Investment Fund - BPI European Financial Equities Long/Short Fund (the "Sub-Fund") was launched in July 2021. The Sub-Fund invests in listed European companies within the financial sector or equity related assets with the aim to achieve an absolute return over the long term while keeping a low volatility, reduced drawdown and a low correlation with equity markets.

The beginning of 2022 was marked by the return of post pandemic inflationary pressures and higher rates which caused a material rotation out of growth, highly valued stocks to more traditional, cheaper names, which typically include financial stocks. More than the market neutral nature of the Sub-Fund, it was also a good time for our factor neutral approach to be tested, which was done quite successfully. Despite the massive dislocation mentioned, our portfolio saw little to no impact, suggesting no particular correlation to either investment style. The quick escalation of the war in Ukraine quickly erased any enthusiasm left in financials, which went from up 14% or so in the first seven weeks of the year to a circa 30% correction. Again, this tested not only our market neutrality but also our country neutrality approach. The severe correction of bank stocks exposed to Russia and eastern geographies did not lead to a meaningful impact on the portfolio. Our short on Raiffeisen was of course extremely rewarding (given the large exposure of the bank to Russia) but largely compensated by the longs in Unicredit, Société Générale, ING and Crédit Agricole. After that unexpected shock, a new landscape had formed and the smooth sailing of banks towards an interest-driven profitability recovery quickly become clouded by the possible effects of a war in European soil in the financial landscape. Inflation, which had been a helpful driver of interest rate expansion, quickly became too much too fast and hence a threat to a number of sectors, which could possibly lead to a steep deterioration in asset quality. Fears of stagflation gained strength and with it doubts about interest rate trajectory. At the same time, market downturn raised questions about bank's ability to meet the expected fee generation projections. Insurers were trapped between very strong claim inflation and inability to raise policy premia. And even the life insurance business, typically standing to benefit from interest rate hikes, needed to see government intervention to help them deal with margin calls on their hedging policies in the UK.

In a nutshell, and despite all these quick changes of landscape, our portfolio maintained its steady and relatively unbothered performance. We ended the year with a positive return of 3.88% with volatility controlled at 2.56%. Most of our main relative bets showed a good relative performance throughout the year, with the possible exception of our shorts on BNP Paribas and ABN, which did perform better than its peers. Aside that, our main long bets evolved well with Bawag, BBVA, Unicredit, Nordea, Natwest or Commerzbank, all performing better than peers.

The Sub-Fund returned 3.88% (Class M) in 2022.

BPI Global Investment Fund - Deméter Fund:

BPI Global Investment Fund - Deméter Fund (the "Sub-Fund") was launched on November 8, 2022. The objective of this Sub-Fund is to provide its investors with capital growth, by investing directly and indirectly via eligible UCITS, including eligible ETFs using active and passive core strategies, as well as a set of other specific strategies, in a mixed basket of equity and fixed income securities. The Sub-Fund invests at least 40% of its net assets in UCITS, including eligible ETFs. In normal market conditions, the Sub-Fund seeks to be exposed in a balanced way to fixed income securities and to equities. The Sub-Fund is mainly exposed to developed markets but may have a maximum exposure of 30% of its net assets to emerging markets.

Equity oriented strategies include global flexible equity strategies, but also specific market biases (e.g. growth, value, cyclical, defensives), specific sector exposure (e.g. health, financial institutions, technology) or specific thematic investments (e.g. artificial intelligence, transport, materials). Fixed income oriented strategies include global flexible fixed income strategies, but also specific asset classes (e.g. convertible bonds), specific countries (e.g. emerging market bonds), specific currencies (e.g. USD curve) or an opportunistic investment (e.g. local currency funds, short duration funds or high yield funds).

Directors' Report (continued)

BPI Global Investment Fund - Deméter Fund (continued):

In equities, a priority was given to geographic areas where profit growth is substantial and valuations are attractive. These investments were made through ETFs and funds, in order to take a directional position.

In fixed income, the main objective was preservation of capital. A small part of the portfolio consists of direct short term government bonds, but the main investments were in corporate bonds. These investments were made through ETFs and funds.

The biggest currency exposure of the Sub-Fund is in US Dollar.

The Sub-Fund returned -2.38% (Class M) in 2022. The main negative return driver was exposure to currency markets. Exposure to equities and fixed income markets were positive.

Volatility was 7.81% during the period.

Outlook 2023

In this environment, our vision of markets for 2023 has not changed: prudence with inflation data is necessary, especially with the latest speeches and minutes from central banks. This inflationary cycle cannot be considered finished. In fact, we think that the drop in inflation is currently due to the more volatile components, but that it cannot be extrapolated to the rest of the shopping basket, especially rentals and services. It is true that both manufacturing and energy products are helping to moderate prices, but it will be difficult to move forward in bringing prices to comfortable levels in the long term if wages do not slow down, the American labor market cools somewhat and both rents and services cushion their growth in price. In this sense, we continue to believe that the time for investment in equities is yet to come.

In the case of fixed income, the scenario is diametrically different. After a year 2022 where the correction in the price of bonds has been very strong, we do not rule out that after the last speeches of the central banks at the end of this year they have put all the restrictive "gunpowder" on the table. Hence, the next buying move may be government and investment grade fixed income. Rates start to look attractive enough considering long-term inflation expectations remain anchored, central banks have just done their job, and terminal interest rates on both sides of the Atlantic are finally clear.

The moment remains one of extreme uncertainty. We have witnessed a unique year in terms of expectations and movements of interest rates and inflation. The possibility that we are finally facing a technical recession scenario will be seen in the coming weeks.

The Board of Directors of the Management Company of the FCP

REPORT OF THE *REVISEUR D'ENTREPRISES AGREÉ*

Opinion

We have audited the financial statements of BPI Global Investment Fund FCP (the "Fund") and of each of its sub-funds, which comprise the statement of net assets, the securities portfolio and financial derivative instruments as at December 31, 2022 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at December 31, 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (Law of July 23, 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "*Commission de Surveillance du Secteur Financier*" (CSSF). Our responsibilities under the Law of July 23, 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "*Responsibilities of the "réviseur d'entreprises agréé"* for the Audit of the Financial Statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Management Company of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "*réviseur d'entreprises agréé*" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Management Company of the Fund for the Financial Statements

The Board of Directors of the Management Company of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Management Company of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Management Company of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Management Company of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "réviseur d'entreprises agréé" for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Management Company of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Management Company of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the *"réviseur d'entreprises agréé"* to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the *"réviseur d'entreprises agréé"*. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The accompanying notes are an integral part of these financial statements.

Notes to the Financial Statements as at December 31, 2022

Note 1. General

BPI Global Investment Fund (the "Fund") is established in accordance with Part I of the amended Luxembourg Law of December 17, 2010 relating to Undertakings for Collective Investment in Transferable Securities ("UCITS") by CaixaBank Asset Management Luxembourg, S.A. (the "Management Company"), as an open-ended investment fund. The only Shareholder of the Management Company is CaixaBank Asset Management S.G.I.I.C., S.A.U..

The Management Regulations for the Fund entered in force on February 18, 1994 and were changed in 2016 and in 2018. They may be amended by the Management Company in accordance with the relevant legal provisions. Other information intended for Unitholders are published in the *Recueil Electronique des Sociétés et Associations* ("RESA") in Luxembourg, if such publication is prescribed by the Law. They may also be published in a Luxembourg newspaper. Such amendments become legally binding in respect of all Unitholders subsequent to its publication in the RESA. The Management Regulations are available at the Register of Commerce and Companies of the District Court of Luxembourg for inspection.

The active Sub-Funds and related classes of Units of BPI Global Investment Fund as at December 31, 2022 are:

- BPI Opportunities
- BPI High Income Bond Fund
- BPI Iberia
- BPI Africa
- BPI Technology Revolution
- BPI Alternative Fund: Iberian Equities Long/Short Fund
- Maverick Global Fund
- BPI European Financial Equities Long/Short Fund
- Deméter Fund (launched on November 8, 2022)

Units of each Sub-Fund may be divided into Classes E, I, M and R.

The object of the Management Company is the creation, administration and management of UCITS authorised pursuant to part I of the amended Luxembourg Law of December 17, 2010 relating to UCITS and other Luxembourg Undertakings for Collective Investment ("UCIs") and the issue of certificates or statements of confirmation evidencing undivided co-proprietorship interests in such UCITS and UCIs. The Management Company may also carry on any activities deemed useful for the accomplishment of its object, remaining, however, within the limitations set forth by the amended Luxembourg Law of December 17, 2010 relating to UCITS. At a meeting held April 2, 2019, the Board of Directors of the Management Company (the "Board") resolved to adopt the ALFI Code of Conduct. An annual assessment is performed by the Board to ensure the continuing adherence of the Management Company to the principles and recommendations of the ALFI Code of Conduct.

The Management Company manages and administers the Fund for the account and in the interest of the Unitholders. The Management Company determines the investment policy of the individual Sub-Funds constituting the Fund, determines their launching and determines their dissolution. The Management Company is vested with extensive powers in order to perform all administrative and management actions in its name for the account of the Unitholders. It shall accordingly be entitled in particular to buy, sell, subscribe to, exchange and receive securities and other assets as well as to exercise all the rights directly or indirectly connected with the assets of the Fund.

The investment objectives of the Sub-Funds are as follows:

Sub-Funds	Investment objective
BPI Opportunities	The investment objective of the Sub-Fund is to provide Unitholders with long-term capital appreciation, based on risk spreading and future potential growth. The Sub-Fund mainly invests in instruments issued by companies that, in the Management Company's opinion, may benefit from an operational or financial reorganisation or companies that offer a strong valuation potential, due to the reorganisation expected in their economic sector. The Sub-Fund has no restriction in terms of geographical asset allocation.
BPI High Income Bond Fund	The investment objective of the Sub-Fund is to provide Unitholders with a high current income through a diversified portfolio based on the acquisition of fixed-income securities, with no currency restriction, and oriented to the acquisition of debt securities or similar securities and preferred stock with a main focus on issuing entities which are rated below investment grade, as assigned by international rating companies, and on entities which, although unrated, are considered of comparable credit quality. The Sub-Fund has no restriction in terms of geographical asset allocation.
BPI Iberia	The investment objective of the Sub-Fund is to provide Unitholders with long-term capital appreciation, based on risk spreading and future potential growth. The Sub-Fund mainly invests in instruments issued by Portuguese and Spanish companies and companies that have their main activities in Portugal and Spain.
BPI Africa	The investment objective of the Sub-Fund is to provide Unitholders with long-term capital appreciation based on risk spreading and future potential growth. The Sub-Fund mainly invests in instruments issued by African companies (companies having their head office in Africa or listed in Stock Markets in African countries) and/or companies that have significant operations in Africa.

Notes to the Financial Statements as at December 31, 2022 (continued)

Note 1. General (continued)

Sub-Funds	Investment objective
BPI Technology Revolution	The Sub-Fund's investment objective is to provide Unitholders with long-term capital appreciation through the investment in a diversified portfolio of equity securities and other types of transferable securities issued by companies across the globe, who are pioneering the various themes present in the technology revolution such as but not limited to robotics, artificial intelligence, big data analytics, machine learning, Internet of Things (IoT), Fintech, Cloud Computing, 3D printing.
BPI Alternative Fund: Iberian Equities Long/Short Fund	The investment objective of the Sub-Fund is to provide Unitholders with medium to long-term capital appreciation by investing in two strategies: (i) the first and the main strategy consists of offering access to a portfolio composed of Iberian shares whose performance is related with the relative performance of these shares and not with the absolute performance of the markets in which they are inserted. This strategy consists of the elaboration of a Long Portfolio (long positions in shares and shares/indices derivatives) and a Short Portfolio (short positions obtained through recourse to derivatives). This strategy will have a "market neutral" bias; (ii) the second strategy goal is to take advantage of clear and defined equity market tendencies. It will have a directional logic taking advantage of the midterm market trends. Exposure to equity risk that is not Iberian will be made exclusively through derivatives on indices.
Maverick Global Fund	The investment objective of the Sub-Fund is to provide Unitholders with long-term capital appreciation by investing in a dynamic and diversified portfolio, mainly equity securities, including common stocks, preferred stocks, warrants, securities convertible into common stock or other securities indexed to stocks of companies, which in the opinion of the Management Company have a strong potential for growth and where it considers the risk appropriate for the Sub-Fund.
BPI European Financial Equities Long/Short Fund	The investment objective of the Sub-Fund is to provide Unitholders with absolute return by primarily investing directly or indirectly in transferable securities. The strategy consists of offering investors access to a portfolio composed of shares or similar transferable securities and fixed income instruments, issued by European companies within the financial sector, in which the return is driven by the relative performance of these shares or instruments and not with the absolute performance of their respective markets. To achieve the above, the strategy consists in the construction of a Long Portfolio (with long positions in shares and derivatives on shares or indices) and a Short Portfolio (with short positions obtained through derivatives). The Sub-Fund will implement a strategy that has a "market neutral" bias, as long and short positions imply positive and negative exposures to the equity market and will therefore neutralize the market returns, as the gain in the long/positive positions is mostly eliminated by the loss in the short/negative positions and vice-versa. As such, the strategy will mostly try to capture returns resulting from the relative performance between the securities. In this way, the directional risk of the strategy decreases substantially.
Deméter Fund (launched on November 8, 2022)	The objective of this Sub-Fund is to provide its investors with capital growth, by investing directly and indirectly via eligible UCITS, including eligible ETFs using active and passive core strategies, as well as a set of other specific strategies, in a mixed basket of equity and fixed income securities. Equity oriented strategies include global flexible equity strategies, but also specific market biases (e.g. growth, value, cyclicals, defensives), specific sector exposure (e.g. health, financial institutions, technology) or specific thematic investments (e.g. artificial intelligence, transport, materials). Fixed income oriented strategies include global flexible fixed income strategies, but also specific asset classes (e.g. convertible bonds), specific countries (e.g. emerging market bonds), specific currencies (e.g. USD curve) or an opportunistic investment (e.g. local currency funds, short duration funds or high yield funds).

The financial year begins on January 1 and terminates on December 31 of each year.

Note 2. Significant accounting policies

The Financial Statements are presented in accordance with Luxembourg Laws and regulations relating to Undertakings for Collective Investment in Transferable Securities and generally accepted accounting policies in Luxembourg.

The combined Financial Statements of the Fund are expressed in Euro and are equal to the sum of the corresponding accounts in the Financial Statements of each Sub-Fund converted into Euro at the exchange rate prevailing as at December 31, 2022.

Valuation of investments

The value of the assets held by each Sub-Fund is calculated as follows:

- Securities which are listed on an official stock exchange are valued at the last available closing price. If the same transferable security is quoted on several stock exchanges, the last available listing on the stock exchange that represents the major market for this security is valid;
- Securities that are not listed on an official stock exchange, but which are actively traded on another regulated market which operates regularly and is recognized and open to the public, are valued at the last available price on this market;

Notes to the Financial Statements as at December 31, 2022 (continued)**Note 2. Significant accounting policies (continued)****Valuation of investments (continued)**

- If these prices fail to conform correctly to market trends, the respective securities, as well as the other legally admissible assets, are valued at their corresponding market value which the Management Company, acting in good faith, estimates on the basis of the probable selling price;

- Units / shares issued by open-ended investment funds are valued at their last available Net Asset Value.

The Management Company is authorized to apply other adequate valuation principles for the total assets of the Fund and the assets of an individual Sub-Fund if the aforementioned valuation criteria appears impossible or inappropriate due to extraordinary circumstances or events.

In the case of extensive redemption applications, the Management Company establishes the value of the Units of the relevant Sub-Fund on the basis of the prices at which the necessary sales of securities are affected. In such an event, the same basis for calculation is applied for subscription and redemption applications submitted at the same time.

The value of any cash in hand or on deposit, bills and demand notes payable and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Board of Directors of the Management Company may consider appropriate in such case to reflect the true value thereof.

Valuation of futures contracts

Unrealized gains or losses on open futures contracts are calculated as being the net difference, on any Valuation day, between the contract price and the closing price reported on the primary exchange of the futures contracts. Upon entering into futures contracts, the Fund is required to pledge an amount as an initial deposit. These amounts are included in cash at bank in the Statement of Net Assets and all net realised gains and losses and net changes in unrealised appreciation and depreciation are included in the Statement of Operations and Changes in Net Assets.

Valuation of forward foreign exchange contracts

The forward foreign exchange contracts opened at the end of the year are valued at the forward exchange rates corresponding to the residual maturity of the contract. The net unrealised appreciation / (depreciation) is included in the Statement of Net Assets and all net realised gains and losses and net changes in unrealised appreciation and depreciation are included in the Statement of Operations and Changes in Net Assets. Regarding the calculation of net positions per currency, the positions are converted at the exchange rates prevailing as at December 31, 2022.

Valuation of options contracts

The liquidating value of options contracts that are not traded on Regulated Markets or on other Regulated Markets, is determined pursuant to the policies established in good faith by the Board of Directors of the Management Company, on a basis consistently applied. The liquidating value of options contracts traded on Regulated Markets or on other Regulated Markets is based upon the last available settlement prices of these contracts on Regulated Markets and organised markets on which the particular options contracts are traded; provided that if an option contract cannot be liquidated on such Luxembourg Banking Day with respect to which a Net Asset Value is being determined, then the basis for determining the liquidating value of such contract is such value as the Board of Directors of the Management Company may, in good faith and pursuant to verifiable valuation procedures, deem fair and reasonable. The net unrealised appreciation / (depreciation) is included in the Statement of Net Assets and all net realised gains and losses and net changes in unrealised appreciation and depreciation are included in the Statement of Operations and Changes in Net Assets.

Valuation of equity swaps contracts

An equity swap is a contract whereby the Fund and a counterparty enter into an agreement to exchange one stream of income (linked to securities, instruments, an index, or a basket of equities or bonds) for another stream of income (linked to other securities or instruments, a different index or another basket of equities or bonds). Equity swaps contracts are entered into with first-rate financial institutions specialising in this type of transaction. The valuation of equity swaps contracts is based on the calculation of the net present value of the expected cash flows. The net unrealised appreciation / (depreciation) is included in the Statement of Net Assets and all net realised gains and losses and net changes in unrealised appreciation and depreciation are included in the Statement of Operations and Changes in Net Assets.

Foreign exchange transactions

All investments, cash balances and other assets or liabilities of each class of Units expressed in currencies other than EUR have been valued after taking into account the exchange rate at the time of determination of the Net Asset Value of Units.

Foreign exchange rates used as of December 31, 2022 are as follows:

1 EUR=	1.573750	AUD	1 EUR=	11.160800	MAD
1 EUR=	1.446050	CAD	1 EUR=	46.585500	MUR
1 EUR=	0.987450	CHF	1 EUR=	491.735500	NGN
1 EUR=	7.436450	DKK	1 EUR=	10.513500	NOK
1 EUR=	26.419800	EGP	1 EUR=	11.120250	SEK

Notes to the Financial Statements as at December 31, 2022 (continued)**Note 2. Significant accounting policies (continued)****Foreign exchange transactions (continued)**

1 EUR=	0.887250	GBP	1 EUR=	1.067250	USD
1 EUR=	140.818300	JPY	1 EUR=	18.159250	ZAR
1 EUR=	131.698650	KES			

Transactions in foreign currencies are converted at prevailing exchange rates at the transaction date. Gains or losses on foreign exchange transactions are included in the Statement of Operations and Changes in Net Assets under the caption net realised gains and losses on foreign exchange transactions.

Income

Dividends are recognised as income on the date when shares are quoted ex-dividend for the first time. Dividends and interest received by the Fund on its investments are recorded net of any non-recoverable withholding tax.

Interest income is accrued on a daily basis.

Net realised gain / loss on sales of investments

Realised gains or losses arising from sales of investment securities are computed using the average cost basis and are presented net. All net realised gains and losses and net changes in unrealised appreciation and depreciation are included in the Statement of Operations and Changes in Net Assets.

Income and expenses on equity swaps

Income and expenses on equity swaps consist of the net sum of dividends and interest receivable and payable on equity swaps. These amounts are included in the Statement of Operations and Changes in Net Assets.

Net Asset Value per Unit

The Net Asset Value per each class of Units of each Sub-Fund is expressed in the currency of the Sub-Fund and is obtained by dividing the total net assets of the Sub-Fund relating to the class by the number of Units outstanding. The net assets of each Sub-Fund are equal to the difference between the sum of the assets and its liabilities.

Issue of Units

The issue price of each Sub-Fund is based on the Net Asset Value per each class of Units. In addition, the sales agencies are allowed to charge an issuing fee of maximum 3% in their favour. All subscription requests received by the Management Company or by the Registrar and Transfer Agent prior to 2.00 pm on a Luxembourg Banking Day ("Valuation Day") is executed at the issue price of Valuation Day, as made public on the following Valuation Day. Depending on the relevant Sub-Fund, requests for subscriptions might need to be presented at a prior date to the Valuation Day.

Redemption of Units

The redemption price of each Sub-Fund is based on the Net Asset Value per each class of Units minus a redemption fee of maximum 3% in favour of the sales agencies. All redemption requests received by the Management Company or by the Registrar and Transfer Agent prior to 2.00 pm on a Valuation day are executed at the redemption price of Valuation Day, as made public on the following Valuation Day. The redemption fee is of maximum 2% for all Sub-Funds except for BPI Africa, BPI Alternative Fund: Iberian Equities Long/Short Fund and BPI European Financial Equities Long/Short Fund, which is up to 3%. Depending on the relevant Sub-Fund, requests for redemptions might need to be presented at a prior date to the Valuation Day.

Transactions costs

The Fund incurred transaction costs which have been defined as brokerage fees, certain taxes and certain depositary fees relating to the purchase and sale of transferable securities, money market instruments or other eligible assets. The global amounts of transaction costs are all taken into account through the Statement of Operations and Changes in Net Assets. In line with market practices for debt securities, the transaction costs are included in the spreads relating to the purchase and sale of debt securities.

Formation expenses

The charges relating to the creation of a new Sub-Fund are borne by the Sub-Fund exclusively and are charged to the Sub-Fund immediately or, upon the Board of Directors of the Management Company's decision, amortised over a period of 5 years with effect from the launch date of the Sub-Fund.

Swing pricing

On any Valuation Day the of the Management Company may determine to apply an alternative valuation methodology (to include such reasonable factors as they see fit) to the Net Asset Value per Unit. This valuation methodology is intended to pass the estimated dealing costs of the underlying investment activity of the Fund and the estimated bid/offer spread of the assets in which the Sub-Fund invests to the active Unitholders by adjusting the Net Asset Value of the relevant Unit by a certain percentage (the "Swing Factor") and thus to protect the Fund's long-term Unitholders from costs associated with ongoing subscription and redemption activity (a "swing pricing" methodology).

Notes to the Financial Statements as at December 31, 2022 (continued)

Note 2. Significant accounting policies (continued)

Swing pricing (continued)

The Swing Factor (not exceeding 2% of the net assets of the relevant Sub-Fund, unless otherwise explicitly stated in the Supplement of a Sub-Fund) will be an addition when the net movement results in an increase of the Units linked to the Sub-Fund and a deduction when it results in a decrease. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, the resulting adjustment may be different for net inflows than for net outflows. Where a Sub-Fund invests substantially in government bonds or money market securities, the Board of Directors of the Management Company may decide that it is not appropriate to make such an adjustment. No swing price mechanism was applied during the year ended December 31, 2022.

Note 3. Global management fees

Each Sub-Fund is subject to a Global management fee, which includes the remuneration of the Management Company, the Administrative Agent, the Registrar and Transfer Agent, the Corporate Secretarial Agent and the Depositary and Paying Agent. BNP Paribas, Luxembourg Branch** is the Administrative Agent and the Paying Agent. The Global management fee is expressed as a percentage of the average daily net assets of each Sub-Fund and is payable on a monthly basis.

There is a specific Global management fee for each Sub-Fund and class of Units at the following annual rates:

Sub-Funds	Classes of Units	Global management fees
BPI Opportunities	Unit I	1.00%
	Unit R	2.00%
BPI High Income Bond Fund	Unit I	0.75%
	Unit R	1.25%
BPI Iberia	Unit I	1.00%
	Unit R	2.00%
BPI Africa	Unit I***	1.50%
	Unit R	2.50% since December 22, 2022 3.00% until December 21, 2022
	Unit M	1.00%
BPI Technology Revolution	Unit I****	1.00%
	Unit R	1.70%
	Unit M	0.70%
BPI Alternative Fund: Iberian Equities Long/Short Fund	Unit I	1.50%
	Unit R	2.00%
Maverick Global Fund	Unit E	Up to 1.63%
	Unit R	Up to 1.93%
BPI European Financial Equities Long/Short Fund	Unit M	0.70%
Deméter Fund*	Unit M	Up to 1.00%

* Please see Note 1.

** As of October 1, 2022, BNP Paribas Securities Services - Luxembourg Branch merged with its parent entity, BNP Paribas S.A..

*** Dormant share class since April 25, 2022.

**** Dormant share class since December 29, 2021.

Note 4. Administration fees

The Administration Fees shown as a distinct caption in the Statement of Operations and Changes in Net Assets cover the below:

- Domiciliation fees
- KIIDs fees
- Registrar fees

Note 5. Performance fees

The Performance fee ("Performance fee") is paid out of the assets of the following Sub-Funds. The Performance fee amounts to a percentage of the positive difference between each Sub-Fund's net performance by class of Units and the performance of its respective benchmark. The rates and benchmarks of each Sub-Fund are detailed as follows:

Sub-Funds	Classes of Units	Rate per annum	Benchmark	Performance fee payable to
BPI Alternative Fund: Iberian Equities Long/Short Fund	Unit I	20.00%	€STR Index	Management Company
	Unit R			
BPI European Financial Equities Long/Short Fund	Unit M	20.00%	€STR Index	Management Company

Only the Sub-Funds BPI Alternative Fund: Iberian Equities Long/Short Fund and BPI European Financial Equities Long/Short Fund pay Performance fees to the Management Company.

Notes to the Financial Statements as at December 31, 2022 (continued)

Note 5. Performance fees (continued)

The table below indicates the performance fees that have been charged for the following Sub-Funds during the year:

Sub-Funds	Classes of Units	Amount of Performance fees in EUR	% of average Net Assets per Classes of Units
BPI Alternative Fund: Iberian Equities Long/Short Fund	Unit I	1,492,275.40	0.42%
	Unit R	88,801.96	0.28%
BPI European Financial Equities Long/Short Fund	Unit M	172,661.43	0.67%

Note 6. Taxation

The Fund is subject in Luxembourg to a *taxe d'abonnement* of 0.05% per annum on its Net Asset Value, except for the Shares reserved for institutional investors who may benefit from the reduced rate of 0.01%. The *taxe d'abonnement* is payable quarterly and is calculated on the basis of the net assets of the Fund at the end of the relevant quarter.

In accordance with article 175 (a) of the Law, the portion of the net assets invested in UCIs already subject to the *taxe d'abonnement* is exempt from this tax.

Under the current legislation, except for the EU Council Directive 2003/48/EC on taxation of savings income in form of interest payments, the Unitholders are not subject to any taxes on capital gains, income, inheritance or other taxes in Luxembourg unless they are or were residents of Luxembourg or maintain a permanent establishment there with title to the Units. Potential Unitholders should seek information on the Laws and regulations in force and, where appropriate, seek advice on subscription, purchase, possession and sale of Units at their place of residence.

Capital gains, dividends and interest on securities issued in other countries may be subject to irrecoverable withholding or capital gain taxes imposed by such countries.

Note 7. Distribution Policy

In principle, the net proceeds of the individual Sub-Funds are not distributed to Unitholders. Nevertheless, according to article 13 of the Management Regulations, the Management Company may decide, after closing the annual accounts, whether and to what extent distributions are to be paid to Unitholders.

For the year ended December 31, 2022, no distribution was declared to or paid to Unitholders.

Note 8. Total Expense Ratio ("TER")

The TER expresses the total annual fees, expenses and charges (i.e. the total operating costs, excluding any transaction costs, interests on borrowings, payments incurred because of financial derivative instruments, sales charges or any other fees directly paid by the investor) of a Sub-Fund in percentage of the average net assets of the relevant Sub-Fund.

The TER of each Sub-Fund for the year ended December 31, 2022 is given below:

Sub-Funds	Classes of Units	TER excluding Performance fees in % of TNA	Performance fees in % in TNA
BPI Opportunities	Unit R	2.12%	-
	Unit I	1.07%	-
BPI High Income Bond Fund	Unit R	1.37%	-
	Unit I	0.84%	-
BPI Iberia	Unit R	2.18%	-
	Unit I	1.14%	-
BPI Africa	Unit R	3.31%	-
	Unit M	1.35%	-
BPI Technology Revolution	Unit R	1.82%	-
	Unit M	0.82%	-
BPI Alternative Fund: Iberian Equities Long/Short Fund	Unit I	1.58%	0.42%
	Unit R	2.12%	0.28%
Maverick Global Fund	Unit E	1.63%	-
	Unit R	2.03%	-
BPI European Financial Equities Long/Short Fund	Unit M	0.76%	0.67%
Deméter Fund*	Unit M	0.60%	-

* Please see Note 1.

Note 9. Investments in securities valued at zero

As at December 31, 2022, the Board of Directors of the Management Company has identified as illiquid and valued at zero the following investment:

Sub-Funds	Security description
BPI Opportunities	LA SEDA DE BARCELONA

Notes to the Financial Statements as at December 31, 2022 (continued)**Note 10. Equity swaps contracts**

As at December 31, 2022, the following Sub-Funds entered into swap agreements:

Sub-Fund	Derivatives Counterparties	Collateral received In EUR	Collateral given in EUR	Unrealised gain / (loss) in EUR
BPI Alternative Fund: Iberian Equities Long/Short Fund	JP Morgan	-	710,000.00	902,279.87
	Morgan Stanley	20,000.18	-	
BPI European Financial Equities Long/Short Fund	JP Morgan	-	1,440,000.00	(415,649.08)
	Morgan Stanley	-	100,000.00	

The unrealised gains or losses are recorded as Net unrealised appreciation / (depreciation) on equity swaps contracts in the Statement of Net Assets.

Note 11. Futures contracts

As at December 31, 2022, the following Sub-Funds held positions in futures contracts. The derivatives clearing agent for these positions is listed below. The Sub-Funds have not pledged any collateral for these futures contracts:

Sub-Fund	Derivatives Counterparty
BPI High Income Bond Fund	BANCO SANTANDER
BPI Alternative Fund: Iberian Equities Long/Short Fund	BANCO SANTANDER
BPI European Financial Equities Long/Short Fund	BANCO SANTANDER

Note 12. Changes in the composition of the Securities Portfolio

The report on changes in the composition of the Securities Portfolio for each Sub-Fund during the year is available upon request and free of charge at the registered office of the Management Company.

Note 13. Options contracts

As at December 31, 2022, the following Sub-Fund held positions in options contracts. The derivatives clearing agent for these positions is listed below. The Sub-Fund has not pledged any collateral for these options contracts:

Sub-Fund	Derivatives Counterparty
Maverick Global Fund	BANCO SANTANDER

Note 14. Other Income

In the Statement of Operations and Changes in Net Assets, the item Other income is exclusively composed of exceptional profits and CSDR Penalty positive.

Note 15. Management fees related to UCITS investments

As per Art 46.3 of the Law of December 17, 2010 as amended, the Sub-Fund below invests a substantial proportion of its assets in other UCITS and/or other UCIs. The maximum level of the management fees charged by the other UCITS and/or UCIs in which the Sub-Fund invests is as follows:

Deméter Fund*: 1.80%

* Please see Note 1.

Note 16. Significant event during the year

During the 2022 Annual Shareholders Meeting of the Management Company held it was resolved to appoint Mrs. Ana Martín de Santa Olalla Sánchez (effective date June 15, 2022) as Director of the Management Company.

The Sub-Fund Deméter Fund was launched with effective date November 8, 2022.

Note 17. Subsequent Events

Following a circular resolution from the Board of Directors of the Management Company of the Fund dated September 8, 2022, the Sub-Fund Perseo Fund was created and launched on March 3, 2023.

Additional Information (Unaudited)

Remuneration Policy

The management company has adopted a remuneration policy pursuant to applicable laws and regulations with the objective to ensure that its remuneration structure is in line with its interests and those of the collective investment schemes it manages and to prevent risk taking which is inconsistent with the risk profiles, rules or articles of incorporation or management regulations of the collective investment schemes it manages.

With respect to the financial year ended December 31, 2022 (as of that date, the management company had a headcount of 6 employees), the total fixed and variable remuneration paid by the management company to its employees amounted to EUR 931.523,256 and to EUR 101.945,18 respectively. The total remuneration paid by the management company to senior management and members of its staff whose actions have a material impact on the risk profile of the collective investment schemes managed amounted to EUR 819.851,916. The Board of Directors committee of the management company has reviewed the implementation of the remuneration policy and has not identified any deficiency in that respect. Moreover, the current version of the remuneration policy was not updated in the course of the financial year ended December 31, 2022.

Securities Financing Transactions Regulation

During the year ending December 31, 2022, the Fund did not engage in transactions which are the subject of EU Regulation No 2015/2365 on the transparency of securities financing transactions and of reuse. Accordingly, no global, concentration or transaction data, or information on the reuse or safekeeping of collateral is required to be reported.

Sustainable Finance Disclosure Regulation (SFDR)

The investments underlying the Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities, which are determined by the Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, as amended from time to time.

Global exposure

The method used to calculate global exposure is the absolute value-at-risk approach ("VAR") for BPI Africa and BPI Alternative Fund: Iberian Equities Long/Short Fund and the relative VAR for BPI Opportunities, BPI High Income Bond Fund and BPI Iberia.

BPI Technology Revolution, Maverick Global Fund, BPI European Financial Equities Long/Short Fund and Deméter Fund* are using the commitment approach for calculate global exposure.

Sub-Funds ²	Relative VAR (20 days, 99%)			Leverage ¹ (sum of notionals)
	Min	Average	Max	
BPI Opportunities	105.10%	119.90%	140.70%	0.00%
BPI High Income Bond Fund	94.90%	119.50%	140.90%	5.70%
BPI Iberia	85.40%	98.20%	104.00%	1.80%

Sub-Funds	Absolute VAR (20 days, 99%)			Leverage ¹ (sum of notionals)
	Min	Average	Max	
BPI Africa	5.80%	7.80%	12.50%	4.30%
BPI Alternative Fund: Iberian Equities Long/Short Fund	1.50%	1.90%	2.70%	51.10%

* Please see Note 1.

¹ Leverage: arithmetic average leverage (sum of notionals) during the year in % of TNA.

² (VaR of Sub-fund / VaR of Reference portfolio) multiply by 100 is less than or equal to 200%.
