WHAT IS THIS PRODUCT?

Type

The Shares are a class of shares in CaixaBank Wealth Kotinos Fund of Funds, a sub-fund of CaixaBank Wealth SICAV. The Fund is organised as a public limited company (*société anonyme*) governed by the Luxembourg law of 10 August 1915 concerning commercial companies, as amended (the "1915 Law") and is an investment company with variable capital (*société d'investissement à capital variable*). The Fund qualifies as an undertaking for collective investment in transferable securities (UCITS) within the meaning of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment (the "2010 Law"). The Fund has appointed CaixaBank Asset Management Luxembourg S.A. as its management company (the "Management Company"). The Sub-Fund is a sub-fund of an investment fund, whose performance will depend on the performance of its portfolio as further described in the section "Objectives" of this Key Information Document ("KID").

Term

The Fund, the Sub-Fund and the Shares were created for an unlimited duration. The Fund can be dissolved by a resolution of the general meeting of shareholders as further outlined in the articles of incorporation of the Fund (the "Articles"). The PRIIP Manufacturer cannot terminate the Fund, Sub-Fund or the Shares unilaterally.

Objectives

The investment objective of the Sub-Fund is to provide investors with capital growth, by investing most of its assets in eligible fixed income and equity UCITS. The Sub-Fund will invest at least 60% of its net assets in other UCITS, including eligible Exchange-Traded Funds ("ETFs"). As such, the Sub-Fund qualifies as a fund of funds. A mainly part of the Sub-Fund's net assets will be invested into fixed income UCITS or directly into fixed income securities. The fixed income securities such UCITS are investing in or the Sub-Fund is directly investing in include government bonds, credit bonds, emerging market bonds, convertible bonds, covered bonds and high yield bonds. The Sub-Fund will not invest more than 20% of its net assets, directly or through UCITS, into high yield bonds. Where the Sub-Fund invests directly into fixed income securities and there is a rating downgrade, a corporate action or other conversions (including corporate restructuring events), the 20% limit referred to above may be exceeded on a temporary basis. In this case, CaixaBank Asset Management, S.G.I.I.C., S.A. (the "Investment Manager") will seek to reduce its exposure to those instruments as soon as practicable whilst having regard to the best interest of the investors. If market conditions so allow and if so required to achieve its investment objective, the Sub-Fund's exposure to equity UCITS and to equity securities directly may reach up to 50% of net assets in aggregate, it being understood that at all times, at least 60% of the net assets of the Sub-Fund are invested into other UCITS including eligible ETFs. Indirect and direct investments of the Sub-Fund will in principle be made into developed markets. The exposure to emerging markets is limited to 15% of the Sub-Fund's net assets. The Sub-Fund may invest up to 10% of its net assets into UCITS (including eligible ETFs) that are exposed to commodities and real estate respectively. The Sub-Fund will not enter into Securities

Financing Transactions ("SFTs"). The Sub-Fund will not enter into total return swaps. To achieve its investment goals, for treasury purposes and/or in case of unfavorable market conditions, the Sub-Fund may also invest in money market instruments and transferable securities on an ancillary basis. The Sub-Fund may also hold ancillary liquid assets, such as cash in bank deposits at sight held in current accounts with a bank accessible at any time, for up to 20% of its net assets which may only go beyond the 20% limit in case of exceptionally unfavorable market conditions as further described in the prospectus. The Sub-Fund may use derivatives for the purpose of efficient portfolio management, hedging and to implement investment strategies which aim to achieve the Sub-Fund's investment objective. The Sub-Fund will in principle not make an extensive use of derivatives. The Sub-Fund may invest in derivatives in the form of futures and options traded in official markets including, but not limited to, EUREX, CMT, CBOT and MEFF, and/or in financial derivative instruments dealt in over-the counter ("OTC derivatives"), such as credit default swaps. The Shares are non-distributing, any income generated by the Sub-Fund is reinvested to grow the value of Shares. Investors may redeem their Shares in the Sub-Fund on each business day in Luxembourg. Taking into account the long-term holding period and the characteristics of the investments, the performance of the Sub-Fund therefore depends on the performance of the investments over time. A positive performance of the investments will lead to the Sub-Fund's positive performance just as a negative performance of the investments will cause a negative performance.. The Sub-Fund pursues an actively-managed investment strategy. For indicative purposes only, the Sub-Fund refers to the following benchmark: 9,50% MSCI Europe TR Net + 10,00% MSCI USA TR Net (USD) + 1,50% MSCI Japan

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- € 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	€ 768	€ 1,843
Annual cost impact (*)	8.1%	3.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3% before costs and -0.8% after costs.

These figures include the maximum distribution fee that the person selling you the product may charge (5% of amount invested). This person will inform you of the actual distribution fee.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you on the actual charge.	€ 500
Exit costs	We do not charge an exit fee for this product.	€ 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.6% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€ 247
Transaction costs	0.22% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€ 21
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	€ 0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 5 years

The Sub-Fund is aimed at investors with a high risk tolerance who assume a perspective of capital appreciation in the medium/long term and, as such, are willing to tie up their savings for a recommended holding period of 5 years.

You can redeem your investment at any time during this period, or hold the investment longer. Investors may redeem their shares of the Sub-Fund on any business day in Luxembourg. Cashing in before the recommended holding period may increase the risk of lower investment returns.
